PROFILE

A passionate full-stack engineer with an eagerness for learning and exploring new trends in the technology industry.

EMPLOYMENT HISTORY

Real-Estate Landing Page

- Utilized Google Maps API to show the listings current location on a map, and mark nearby schools or entertainment with custom logos
- Created custom modal slideshow to match clients needs to perfection

Full-Stack Developer, Dolce Nada

Vaughan

Apr 2020 — Apr 2020

- Utilized a combination of GitHub pages and Heroku to deliver a fast and efficient e commerce site to the client for low maintenance fees
- Incorporated Send-Grid API to send confirmation emails to the client and notify the owner of the order placed
- dolcenada.ca

Full - Stack Developer , Freelance

Vaughan

May 2020 — Jun 2020

- Delivered a service site where users can view the companies services
- Incorporated Google Firebase Api for database and image hosting
- Using a combination of Mongo and Firebase to keep the database fees to a minimum while being able to use Admin Bro API for the admin page

EDUCATION

Software Engineering Immersive, Bitmaker General Assembly

Toronto

Jul 2019 — Sep 2019

- Completed 500 hours of an intensive curriculum where skills in Python, Django, JavaScript, and React were developed
- Managed and prioritized tasks through Github projects in a group of 5 to replicate a Kickstarter.com style website
- Created and presented final project where neighbors could view others profiles and borrow items
